Certified SAP BPC + SAC consultants, ready now

One right person on your team in days. Finance first, tools second, both always: our consultants came up through FP&A, auditing and the close.

WHEN ONE RIGHT PERSON BEATS A NEW PROJECT

Keep BPC running
Mainstream maintenance for BPC 10.1 NetWeaver ends December 2027. We keep your close safe while you decide what comes next.

Rescue a stuck SAC program
A certified SAC Planning lead inside your existing project, reporting to your project manager.

Bridge BPC to SAC
The rare profile that knows both sides: what your BPC models do, and how to rebuild them right in SAC.

Cover a leave or a peak
Month-end support, budget season reinforcement, admin coverage. Weeks or months, your call.

THE FINANCE + TECH EXPERTS, READY NOW

Eight senior consultants who speak both languages: finance and the SAP tools that run it. Full named profiles, with certifications and references, shared the same day you ask.

Principal Consultant, CPA, MBA
20+ years across consulting, auditing and corporate FP&A. BPC on NetWeaver and Microsoft plus SAC Planning, incl. a 150+ company legal consolidation.

SAP Certified SAC Planning Lead
Sixteen years techno-functional across BPC and SAC Planning in the US, Europe and Australia. Current SAP Datasphere and Business Data Cloud work.

Solution Director
KPMG-trained BPC consultant, then in-house principal IT architect owning financial systems at a major US airline and a Fortune 200 energy company.

Senior SAC Consultant, MS Finance
Revenue and volume planning builds across regions, with a supply chain and material planning background on the business side.

Planning & Analytics Consultant
SAC, IBP and S/4HANA in one profile: financial and operational planning that actually reconcile.

SAC + Modern Data Stack Consultant
Finance degrees (BSBA, MBA) and Fortune 500 SAC implementations, certified in 2026 across SAC, Datasphere, Business Data Cloud and BTP.

Senior SAC Developer, M.Sc. in Business Intelligence
Corporate FP&A analyst turned full-cycle SAC developer: planning models, custom JavaScript stories and dashboards, certified in SAC and Business Data Cloud.

Head of Data, BW + SAC Certified
Twenty-plus years across data warehousing, planning and consolidation, BW to Business Data Cloud, with program leadership at enterprise scale.

HOW IT WORKS

Tell us the gap (two minutes) • Matched profiles within two business days • You interview, you decide • Our paper or yours, weekly or monthly billing • Start in days, remote or on-site
